### CLEANROOM OVERBOOTS and OVERSHOES

Gridded soles reducing hazards from broken ampoules and slippery floors

Gamma irradiable / autoclavable

Unique snap fasten over bridge (see above)

Tie tapes at calf and ankle

Toggle adjust at calf

Pre-autoclaved tapes

Highest quality monofilament thread

Overlapping and coverstitching of hose to sole - reduces shedding

Sizes: Small | Medium | Large | Extra Large | Extra Extra Large \* Sole types carry different sizing patterns

Sole Types Standard EUROTEx(TM)

AUSSIE

CHEMSTAT

EUROTEx(TM) RUBBER COMPOUND

EUROTEx(TM) footwear is proven in the field. Static dissipative/durable and withstanding gamma irradiation. Designed with COSHH recommendations in mind.

We strongly advise that dedicated undershoes be worn to ensure that correct fitting is achieved at all times.
