FABRICS - STANDARD WORKWEAR & FOOD HYGIENE

The following is the range of fabrics offered for General Purpose Workwear Garments. They are listed below by fabric weight, with a brief description. Additional information on fabric performance and certification can be obtained under our EN Standards section of this website. Regarding colours, please note that there are a substantial range of colours indicated, but not all are stock items.

ALBA 2 145 gm² - 67% polyester / 33% cotton

Fabric Specifications: [Alba 2 Spec Sheet \(Click to See\)](#)

Colour Card: [Alba 2 Colours \(Click to See\)](#)

Colours viewed on computer can be at variance with the actual colour. Please request a shadecard.

ALBA 2 is a lightweight poly/cotton fabric that has been specifically developed for men and women's shirts, blouses and light working apparel e.g scrub suits for paediatric wards.

TEREDO 195 gm² - 67% polyester / 33% cotton

Fabric Specification: [Teredo Spec Sheet \(Click to See\)](#)

Colour Card: [Teredo Colours \(Click to See\)](#)

Colours viewed on computer can be at variance with the actual colour. Please request a shadecard.

Teredo is one of the top selling poly/cotton's used predominantly in image workwear and healthcare. It has the largest range of stock supported colours and print designs. Its hardwearing properties make it suitable for both men's and lady's garments.

TOMBOY 245 gm² - 67% Polyester / 33% Cotton

Fabric Specification: [Tomboy Spec Sheet \(Click to See\)](#)

Colour Card: [Tomboy Colours \(Click to See\)](#)

Colours viewed on computer can be at variance with the actual colour. Please request a shadecard.

Tomboy is the top selling men's workwear fabric. It has been developed to meet stringent performance criteria and industrial laundering. It is extremely durable and hardwearing and retains its smart appearance after multiple laundering.

TRIDENT 300 gm² - 67% Polyester / 33% Cotton

Fabric Specification: Trident Spec Sheet ([Click to See](#))

Colour Card: Trident Colours ([Click to See](#))

Colours viewed on computer can be at variance with the actual colour. Please request a shadecard.

Trident is a tough heavyweight fabric constructed to offer extra warmth and protection to the wearer. It has excellent abrasion resistance and is comfortable to wear. It is widely used in outside heavy industry and imagewear for transport companies. The high visibility fabric conforms to EN471.

ATLAS 315 gm² 60% Cotton / 40% Polyester

Fabric Specification: Atlas Spec Sheet ([Click to See](#))

Colour Card: Atlas Colours ([Click to See](#))

Colours viewed on computer can be at variance with the actual colour. Please request a shadecard.

Atlas is an ideal fabric to be used in industries where heavy soiling is normal e.g. from grease and oil. The high cotton content helps to prevent the soiling from penetrating the fabric onto the wearer whilst the inclusion of polyester ensures low shrinkage, less colour loss and better durability.
